METHODOLOGY:

The survey of 1,000 Adults was conducted online by Scott Rasmussen from December 4-8, 2020. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied to the overall sample and lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation's population. Other variables were reviewed to ensure that the final sample is representative of that population. Margin of Sampling Error: +/- 3.1
